Agro-Policy for rain fed area

2278. SHRI C. PERUMAL: Will the Minister of AGRICULTURE be pleased to state:

(a) whether it is a fact that Government have no agro-policy for the rain fed areas;

(b) if so, whether there is any proposal to initiate an agro-policy for 60 per cent of rain fed agricultural lands; and

(c) if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI KANTILAL BHURIA): (a) to (c) The National Agricultural Policy 2000 addresses issues of sustainable agriculture which include watershed development in rainfed areas. As per this policy integrated and holistic development of rainfed areas has been given emphasis through conservation of rainwater by vegetative measures on watershed basis and augmentation of biomas production through agro and farm forestry with the involvement of the watershed community. The policy document also envisages a long term prospective plan for sustainable rainfed agriculture through watershed approach for development of two third of India's cropped area which is dependant on rains.
